Dear Sirs,

Investor Video Presentation

The Company is pleased to advise that an "Investor Video Presentation" has been prepared in respect of the Digital Speaker technology which will be presented at various investor and broker presentations in Australia and overseas.

The Video Presentation is now available on the Company website and YouTube as follows:

<http://www.audiopixels.com.au/index.cfm/investor/video-presentation/>

<https://www.youtube.com/watch?v=G47q4vU3Fr8>

Yours faithfully,

A handwritten signature in black ink, appearing to read "Ian Dennis", is written over a light blue grid background.

Ian Dennis
Director

About Audio Pixels

Audio Pixels patented technological platform utilizes entirely new techniques to generate sound waves directly from a digital audio stream using low cost micro-electromechanical structures (MEMS). This innovation overcomes many of the limitations found in conventional loudspeaker subassemblies thus enabling the production of speaker products that deliver superior sound and electrical performance all in a semiconductor type package that is remarkably compatible with existing and emerging OEM requirements and ambitions for their consumer electronic device designs.
