Dear Sirs,

Digital Speaker Development Update

The Company advises its shareholders of a slight delay in receiving wafers; from the previously advised third week of May, to the third week of June. The vendor attributes the delay to various measures they are taking to optimise the final steps of wafer fabrication to further improve pixel yield. The vendor's decision was largely based on tests and measurements conducted by the company on several samples provided by the vendor over the past weeks.

Yours faithfully,

Fred Bart
Chairman
